

COLLEGE CONSULTANT OVERVIEW

RAISING THE COLLEGE ADMISSIONS PERFORMANCE OF TALENTED HIGH-NEED STUDENTS

Purpose

The College Consultant Program is all about helping our College Bound Scholars with the college admissions process. As rising high school seniors, most of our students do not know enough about the college selection process to maximize their potential.

For each student, the college consultant's role will be different. Some students need more help crafting the perfect essay, while others need more help preparing their FAFSA or researching colleges. Ideally, the consultants will share their experience with our students and ultimately help them make the best possible college choice.

Objectives

- Help students identify colleges that meet their needs
- Work with students to polish their personal essays
- Ensure that students apply to a range of schools (from “safety schools” to “stretches”)
- Ensure that students complete all of their applications on time
- Assist students and their families with completing the FAFSA forms and submitting it on time

Consultant Requirements

- 2-4 contacts with the student each month (phone, in-person, email, etc.)
- 4 face-to-face meetings with the student over the entire year

For more information about our College Consultant program please contact Blake Ward at 312-917-8103 or blake.ward@nuveen.com.
